

(b) Other circumstances of the individual case warrant disability processing instead of further processing for administrative separation.

(2) The authority of the GCMCA to determine whether a case is to be processed through medical disability channels or under administrative separation provisions will not be delegated.

(3) The GCMCA's signed decision to process a soldier through the physical disability system will be transmitted to the MTF commander as authority for referral of the case to a PEB.

(a) Copies of the GCMCA's decision will be furnished to the unit commander and included in the administrative separation proceedings.

(b) The unit commander will suspend processing of the administrative separation action pending the PEB.

1. If the soldier is found physically fit, the administrative separation action will be resumed.

2. If the soldier is found physically unfit, the administrative separation action will be abated.

c. Disability processing is inappropriate if the conditions in b(1)(a) and (b) do not apply, if UCMJ action has been initiated, or if the soldier has been medically diagnosed as drug dependent. (See para 14–12c.) Accordingly, disability processing is inappropriate in separation actions under chapter 10.
